# Steps to create Tableau account For Students

To create a Tableau student account, you can follow below steps:

- **Go to the Tableau website:**
  - Visit the Tableau website at https://www.tableau.com/academic/students in your web browser.

- **Click on the "Get Tableau for Free" button:**
  - On the homepage, you'll see a button labeled "Get Tableau for Free" in the top right corner of the page. Click on that button to proceed.

- **Fill in the form with your personal information:**
  - The next page will prompt you to fill out a form with your personal information, including your first name, last name, email address, and the name of your school. Be sure to enter accurate information, as this will be used to verify your eligibility for the student account.

- **Choose your role as "Student" and enter your graduation date:**
  - In the "Role" section of the form, select "Student" from the drop-down menu. Then, enter your expected graduation date in the space provided.

- **Click on the "Submit" button to create your account:**
  - After you have filled out the required fields, click on the "Submit" button at the bottom of the page to create your account.

- **Verify your email address:**
  - Tableau will send a verification email to the email address you provided. Click on the link in the email to verify your email address.

- **Download and install Tableau Desktop or Tableau Prep Builder:**
  - Once you have verified your email address, you can download and install either Tableau Desktop or Tableau Prep Builder on your computer. Follow the instructions provided by Tableau to complete the installation process.
